

PRESS RELEASE

DATED: 23rd Feb 2008

NEW PROJECT COMMENCES

In conjunction with A & S Motorsports, Pro Speed Developments is developing a Subaru with a twist.

While this may look like any other ordinary Subaru Hatch there will be one noticeable difference. With a few modifications the 1993 Subaru Impreza is going to be converted into a well prepared and reliable 2wd.

With the aim of having the car ready in March for testing the team at PSD are currently working harder than ever.

“With the Silver Fern event being the main goal for this car we want to make sure the car is going to be able to handle the tough challenge that is the Marathon Rally.

This means the car will be built with extra attention to reliability. A full program of testing is planned for Mid 2008.

Silver Fern is scheduled to starting on Wednesday the 16th October and runs until the 23rd October 2008, starting in Christchurch and ending in Blenheim.
